On March 23, 1970, Mr. Charles H. Fetrow, operator of Fetrow's Landfill, R. D. 7, York, Pennsylvania, was sent an order from your office to bring his disposal site into compliance with Act 241. Mr. Fetrow has not complied with this order and, therefore, legal action is requested.

The following determinations were made for this solid waste disposal site as required by the memo of April 20, 1970, "Guidelines for Legal Action Under the Solid Waste Management Act."

A. Ownership and Operation

1. It has been determined that the owner and operator of this site is Mr. Charles H. Fetrow. Repeated attempts to contact Mr. Fetrow since March 23, 1970, have been unsuccessful. However, a check of the records in the York County Courthouse and conversation with the Springettsbury Township Tax Collector indicate that Mr. Fetrow owns this site and pay taxes on it. On February 5, 1970, Mr. Fetrow stated that he was the owner and operator of this site.
2. On February 5, 1970, Mr. Fetrow stated in a conversation with the writer that he retained William E. Sacra & Associates to fulfill the necessary requirements to obtain a permit. A check at the York County Courthouse failed to show the involvement of any partnership, corporation, or association in the operation of this solid waste disposal site. Further on April 20, 1970, the writer contacted the H. J. Williams Company of West York, Pennsylvania, and was advised that Mr. Charles Fetrow had contracted with this company to rent earth-moving equipment for use on his disposal site.

B. Proposed Charges

The magistrate for this district is Mr. Arthur D. Weeks, J.P.,
118 Pleasant Acres Road, York, Pennsylvania, 17407.

1. Operating without a permit.

- a. On May 8, 1970, at approximately 3 P.M., the writer and Edward Simmons, Solid Waste Coordinator, visited the Fetrow Landfill.
- b. Observed a van-type truck unloading cardboard waste materials. The lettering on the vehicle indicated the Ramcliff Supply Company of 1212 East Mason Avenue, York, Pennsylvania, was the owner of this truck. The license number was not obtainable. Also at the time of this visit, two trucks owned by Clyde Zeigler Refuse Collectors entered the site and deposited refuse. One of these vehicles was a compactor-type refuse truck and the other was an open bodied dump truck. In both cases, the license numbers were obscured by mud and stains.
- c. On May 8, 1970, in a conversation with the equipment operator at Fetrow's Landfill, it was determined that this person was employed by the H. J. Williams Company and was assigned that day to operate equipment at the Fetrow Landfill as per the agreement Mr. Fetrow had with the H. J. Williams Company. The operator stated that trucks dumped as late as 6 P.M. and since his day ended at 3:30 P.M. refuse would be left uncovered each day. Zeigler Refuse Collectors have been contracting with Mr. Fetrow to dump solid waste at this site. There are no provisions at the site to exclude unauthorized vehicles.

This order was sent to Mr. Fetrow on March 23, 1970, and was received by him on March 28, 1970. The seven day period expired on April 4, 1970. Mr. Fetrow did not comply with the seven day items. The thirty day period expired April 28, 1970, and it is not known whether or not Mr. Fetrow submitted the two schedules which were requested.
